

Atlas Turbofan Gas Geyser

Atlas Turbofan Gas Geyser:

- Constant Temperature Control with digital display
- Digital Key-pad temperature setting on remote
- Automatic self diagnostic codes
- Microprocessor controlled Variable Burners with
- Turbofan for extreme combustion efficiency yielding
- Compact size unit with integral exhaust manifold
- Weatherproof exterior unit with auto-defrosting
- 0.1 Bar Low starting Water Pressure with Electronic
- Pulse Ignition ensuring fast and stable Ignition
- High power Unit capable of supplying multiple outlets
- Continuous supply up to 280 lt every 10 min's
- L P G Instantaneous Gas Water Heater
- High energy efficiency with no holding tank
- Instant and Never-ending Economical Hot Water.
- Energy efficient, Water is only heated when required.
- Long Lifespan & No risk of burst Geyser.
- No Pilot Flame-Instant Pulse Ignition.
- Simple & Safe.
- Full South African Warrantee
- SABS & SANS1539-2005
- LPGSA Certified

Suitable for use in:

Normal Domestic Houses, Townhouses, Duplexes, Flats, Laundries, Workshops, Factories, Holiday Resorts, Caravan Parks, Game Farms, Guest Houses, Hotels, Low cost housing, Service Stations, Farms, Doctors rooms

Litre Size Per/Minute	L P G Consumption at MAX	Rated Electrical Consumption	Rated Heat Input	Water Pressure MPA	Ignition	Heater Box Dim & Weight	Power Supply
20 lt	2.80 Kg/Hr	8w stand-by 40 w operating	40 Kw	0.01-0.8	Electronic Impulse	660x414 x210mm- 15.5 Kg	A.C.240v 50Hz
